Hiring Manager  
CIBC  
81 Bay Street, 1st Floor  
Toronto, ON M5J 1E6

Dear Hiring Manager,

I am writing to express my strong interest in the Application Developer Co-Op position at CIBC. With a keen passion for programming and a dedication to leveraging technology to drive innovation, I am excited about the opportunity to contribute to CIBC's digital transformation.

Having researched CIBC's commitment to client-centric solutions and innovation, I am particularly drawn to the organization's vision of building a relationship-oriented bank for the modern world. The prospect of working in an environment that values both individual strengths and collective ambitions aligns perfectly with my professional aspirations. I am eager to be part of a team that is actively shaping the future of banking.

In my current role as a third-year Computer Science student at Sheridan College, I have honed my programming skills in languages such as Python, JavaScript, TypeScript, C#, and C++. My coursework, especially in Enterprise Software Systems and Cloud Infrastructure, has equipped me with a strong foundation in developing cross-functional, multi-platform application systems—the very skills required for success in this role.

During my previous position at Naryant, I gained practical experience as a Research Assistant, utilizing Python for simulations and data analysis. This experience, coupled with my role at Karmy Pain Clinics, where I developed an AI-driven pain diagnostic system, has enhanced my problem-solving abilities and strengthened my commitment to leveraging technology for positive outcomes.

My most recent personal project, the MERN Bookstore app, demonstrates my proficiency in using MongoDB, Express, React, and Node.js for creating robust and efficient applications. This project, along with my other experiences, showcases my ability to contribute to CIBC's goal of delivering easy to use, flexible, and personalized banking solutions.

I am excited about the prospect of contributing to CIBC's dynamic team and driving the digital transformation of the banking industry. I am confident that my technical skills, coupled with my passion for innovation, make me an ideal candidate for this position. I would welcome the opportunity to discuss further how my qualifications align with the needs of CIBC in an interview.

Thank you for considering my application. I look forward to the possibility of discussing how my skills and experiences can contribute to the success of CIBC.

Kind Regards,

Imran Yafith
